OGC-85-5. 4

17 May 1985

MEMORANDUM FOR: Chief, New Building Project Office, OL
FROM:
Chief, Logistics and Procurement Law Div., OGC
SUBJECT: EPA Consideration of HQ's Traffic

1. For your information, I have attached several extracts from documents prepared to comply with the Environmental Protection Act requirements relating to traffic consideration resulting from increased utilization of the CIA HQ complex. Tab A. contains the Environmental Impact Statement dated October, 1981 by GSA, which covered the National Capital region. Tab B. is a subsequent Environmental Assessment prepared November, 1981, which specifically addressed the CIA master plan, including transportation aspects. Tab C. is a document dated 21 May 1984, which was prepared to update the November, 1981 Environmental Assessment. The original determinations that the CIA expansion had no significant impact on the environment was reinforced by this latest review process.

2. If you should need any additional material, please let me know.
